

## ABOUT US AND ALMASOL

We create traditional Latin American flavours that are freshly made in Melbourne so your customers can enjoy them at home

Our passion began many years ago, starting up Latin Foods and Wines.

It became very apparent that the demands for traditional Latino American products was beyond that of a cafe/restaurant setting.

AlmaSol was created to provide supermarkets, delis and the food service industry with a range of traditional products.

All our products are handmade at our store in Melbourne, made from the freshest local and imported ingredients.
